Goals

As a Computer Science student and passionate in coding, my main goal is to learn the best practices i can and aply them as soon as possible. I am also interested in being part of a team that supports all kind of ideas and enjoy the daily challenges by searching for solutions instead blame other people. The learning path will aways be difficult, but in the right place, it could be riching and delightful.

Skills

Git:

HTML/CSS:

C++:
